

FACTS & FIGURES

HOW DOES YOUR STATE COMPARE?

2016

In 1941, we introduced our first edition of *Facts & Figures*. “There is need for concise and accurate data,” we wrote. “Facts give a broader perspective; facts dissipate predilections and prejudices. . . [and] this collection of data is an important step to meet the challenge presented by the broad problems of public finance.”

Facts & Figures 2016: How Does Your State Compare? builds on these seven decades of tradition. Mailed to every state legislator and governor, this handbook is designed to be a pocket- and purse-sized guide to state rankings on tax rates, collections, burdens, and more.

These tables were compiled by Tax Foundation staff and updated by Economist Nicole Kaeding. We hope these facts contribute to a healthy public debate.

The Tax Foundation is the nation's leading independent tax policy research organization. Our research and analysis is guided by the principles of sound tax policy:

SIMPLICITY: Administrative costs are a loss to society, and complicated taxation undermines voluntary compliance by creating incentives to shelter and disguise income.

TRANSPARENCY: Tax legislation should be based on sound legislative procedures and careful analysis. A good tax system requires that taxpayers be informed and understand how tax assessment, collection, and compliance works. There should be open hearings, and revenue estimates should be fully explained and replicable.

NEUTRALITY: Taxes should not encourage or discourage certain economic decisions. The purpose of taxes is to raise needed revenue, not to favor or punish specific industries, activities, and products.

STABILITY: When tax laws are in constant flux, long-range financial planning is difficult. Lawmakers should avoid enacting temporary tax laws, including tax holidays and amnesties.

Note: The *State Business Tax Climate Index* measures how each state's tax laws affect economic performance. A rank of 1 means the state's tax system is more favorable for business; a rank of 50 means the state's tax system is less favorable for business. Component rankings do not average to the total. States without a given tax rank equally as number 1. D.C.'s ranks do not affect states' ranks, but the figures in parentheses indicate where it would rank if included.

Table 12, Continued.
State Individual Income Tax Rates
As of January 1, 2016

(a) 2016 rates but 2015 brackets for California, Idaho, Montana, and Ohio. Laws in these states forbid revenue officials from inflation indexing brackets until midyear. Arizona will begin inflation adjusting in 2016.

(b) Tax applies to interest and dividend income only.

(c) Rates apply to individuals earning more than \$75,000. Two special tax tables exist for low- and middle-income individuals: one for individuals below \$21,000 in income and one for those between \$21,000 and \$75,000. Additionally, those between \$75,000 and \$80,000 in income receive a small bracket adjustment.

(d) Bracket levels are adjusted for inflation each year.

(e) These states allow some or all of federal income tax paid to be deducted from state taxable income.

(f) Local income taxes are excluded. Fourteen states have county- or city-level income taxes; the average rate within each jurisdiction is: 0.5% in Alabama; 0.63% in Delaware; 1.56% in Indiana; 0.45% in Iowa; <0.01% in Kansas; 2.10% in Kentucky; 2.90% in Maryland; 1.75% in Michigan; 0.5% in Missouri; 0.50% in New Jersey; 2.11% in New York; 2.25% in Ohio; 0.36% in Oregon; and 2.96% in Pennsylvania. Weighted local rates are from the Tax Foundation, *2016 State Business Tax Climate Index*.

(g) Arkansas, Connecticut, New York, and Nebraska have "tax benefit recapture," by which many high-income taxpayers pay their top tax rate on all income, not just on amounts above the bracket threshold.

Note: Brackets are for single taxpayers. Some states double bracket widths for joint filers (Ala., Ariz, Conn., Hawaii, Idaho, Kans., La., Maine, Nebr., Ore.). New York doubles all except the 6.85% bracket, which is effective at \$300,000. California doubles all but the top bracket. Some states increase but do not double brackets for joint filers (Ga., Minn., N.M., N.C., N.D., Okla., R.I., Vt., Wis.). Maryland decreases some and increases others. New Jersey adds a 2.45% rate and doubles some bracket widths. Consult the Tax Foundation website for tables for married joint filers and married separate filers.

(a) Arkansas assesses a surcharge of 3% of the taxpayer's total liability.

(b) The rate includes a 20% surtax, which effectively increases the rate from 7.5% to 9%. Surtax is required by businesses with at least \$100 million annual gross income.

(c) Nevada, Ohio, Texas, and Washington do not have a corporate income tax but do have a gross receipts tax with rates not strictly comparable to corporate income tax rates. See Table 18 for more information. Delaware and Virginia have gross receipts taxes in addition to corporate income taxes.

(d) Illinois' rate includes two separate corporate income taxes, one at a 5.25% rate and one at a 2.5% rate.

(e) The tax rate in Indiana will decrease to 6.25% on July 1, 2016.

(f) Corporations with entire net income greater than \$100,000 pay 9% on all taxable income, companies with entire net income greater than \$50,000 and less than or equal to \$100,000 pay 7.5% on all taxable income, and companies with entire net income less than or equal to \$50,000 pay 6.5% on all taxable income.

(g) The tax rate in New Mexico will decrease to 6.2% in 2017.

Note: In addition to regular income taxes, many states impose other taxes on corporations such as gross receipts taxes and franchise taxes. Some states also impose an alternative minimum tax and special rates on financial institutions.

Wash.	Business & Occupation Tax (B&O)	0.13% - 3.3%

(a) Virginia's tax is locally levied and rates vary by business and jurisdiction. Approximately half of counties do not levy the tax. Some counties instead levy a capital stock tax.

Note: Gross receipts taxes are complex business taxes imposed at a low rate but on a wide base of transactions, resulting in high effective tax rates that can vary by industry. These taxes also often have minimum taxes that can result in much higher effective rates for some small businesses.

(a) City, county, and municipal rates vary. These rates are weighted by population to compute an average local tax rate.

(b) Three states levy mandatory, statewide local add-on sales taxes at the state level: California (1%), Utah (1.25%), and Virginia (1%). We include these in their state sales tax rates.

(c) The sales taxes in Hawaii, New Mexico, and South Dakota have broad bases that include many business-to-business services.

(d) Due to data limitations, the table does not include sales taxes in local resort areas in Montana.

(e) Some counties in New Jersey are not subject to statewide sales tax rates and collect a local rate of 3.5%. Their average local score is represented as a negative.

Note: D.C.'s ranks do not affect states' ranks, but the figures in parentheses indicate where it would rank if included.

Note: The American Petroleum Institute (API) has developed a methodology for determining the average tax rate on a gallon of fuel. Rates may include any of the following: excise taxes, environmental fees, storage tank taxes, other fees or taxes, and general sales tax. In states where gasoline is subject to the general sales tax, or where the fuel tax is based on the average sale price, the average rate determined by API is sensitive to changes in the price of gasoline. States that fully or partially apply general sales taxes to gasoline are California, Connecticut, Georgia, Illinois, Indiana, Michigan, and New York. D.C.'s rank does not affect states' ranks, but the figure in parentheses indicates where it would rank if included.

	Lineal Heirs	No exemption	4.5%
	Siblings	No exemption	12%
	Others	No exemption	15%

(a) Class D is for-profit organizations; Class E, foreign charitable organizations; Class F, unknown heirs; and Class G, recognized charities.

(b) Maryland and New Jersey have both an estate tax and an inheritance tax. See Table 34.

(c) Nebraska's inheritance tax is levied at the county level.

(d) New Jersey's inheritance tax only applies to estates over \$1m. Class E is charitable organizations.

(e) Parent-to-child transfers to children 21 years and under, transfers of farms and farming equipment, and transfers of some family-owned businesses are exempt.

Note: Inheritance taxes are levied on the posthumous transfer of assets based on relationship to the decedent. Generally, Class A beneficiaries are spouses, children, and often siblings. Class B beneficiaries are non-immediate family members. Class C beneficiaries are non-family members. Unlike estate taxes, the term "exemption" here applies not to the size of the estate but to the size of the gift itself.
