NOTE: Detail may not add to total due to rounding.

[1] The majority of estates file Federal estate tax returns in the year after a decedent's death. So, in 2007, most returns were filed for deaths that occurred in 2006, for which the filing threshold was \$2.0 million. Because of filing extensions, however, some returns were filed in 2007 for deaths that occurred prior to 2006. In 2005, the estate tax filing threshold was \$1.5 million.

[2] To prevent disclosure of individual taxpayer data, the IRS does not provide data for these states. However, the data are included in the appropriate totals.
