### Notes:
- U.S. average median is 0.96% ($1,897 in taxes on $197,600 in home value). The figures in this table are for property taxes paid by households on owner-occupied housing. As a result, they exclude property taxes paid by businesses, renters, and others. All data come from the 2008 American Community Survey from the U.S. Census Bureau. The home value statistic is the median value of owner-occupied housing units for that county. D.C.'s rank does not affect other states but is included to show what D.C. would have if it were ranked.
